

Device Overview

How to wear your Q-Watch?

1 Wear Q-Watch on your wrist

Put on the watch with the watch face facing up and wrap the band around your wrist. Align the clasp end with the holes on the band to measure the best fit on your wrist.

2 Fasten Q-Watch with clasp

Fasten the clasp through the appropriate holes on the band. Try it out on your wrist for best fit and adjust accordingly.

3 Charge your Q-Watch

To charge your Q-Watch, place it in the charging box at the other end of the USB cable. Close the box afterwards, and make sure the Q-Watch is securely covered. Plug the USB connector to either a PC or power adapter to start charging.

4 Change the watch band

1. Spread open both bands with the watch face facing up, and stretch open the two straps that hold around the watch crown for the watch to come off.
2. From below the band, insert the watch with face facing up into the stretchable center area of the band and make sure the watch crown is positioned in between the two rubber straps. Button up the clasp back on the band with two holes.

Note: Use the plastic rod to detangle the rubber straps that hold around the watch crown to help secure the watch in position.

Get started with Q-Watch

1 Download and Install i-gotU Life app

Please download i-gotU Life app from Google Play or the App Store and have it installed on your smartphone:
<https://play.google.com/store/apps/details?id=com.mobileaction.ilife>
<http://appstore.com/igotulife>

Apk download: <http://global.mobileaction.com/download/apk>

Supported device

- Any Android smartphone (v4.3 and up) with built-in 4.0 Bluetooth connectivity; or
- iPhone 4s and later models, iPad 2 and later models, and iPod Touch (all with iOS version 7.0 and up).
- A complete list of supported smartphone or mobile devices can be found at:
<http://ww2.voiis.com/qband/devices.html>

3 Start Using Q-Watch

1. Switch between different function modes

1. Long-press the button on the Q-Watch until you see 4 icons on the screen for mode selection.
2. Press the button to switch mode.
3. You'll be entering the selected mode in 3 seconds.

2. Change display information

Information shown on the screen will vary as you press the button on the Q-Watch to toggle between screens.

3. Q-Watch modes

- ⚙️ **Daily mode:** Analyzes your daily data, including steps taken and calories burned, and displays current UV index.
- 🌙 **Sleep mode:** Tracks your sleep pattern and quality.
- 🏃 **Sports mode:** Starts a workout and displays information including duration, steps taken, calories burned, UV-index and distance traveled during the workout.
- 🕒 **Nap mode:** Awakes you via vibration after a short nap.

4. Icon description

- 📶 Connection Status
- 🔋 Progress
- 🔋 Battery Status
- ☀️ UV – Index

2 Set up Q-Watch

Your Q-Watch can be configured directly on the i-gotU Life app.

First time setup:

1. Open the i-gotU Life app.
2. A **Setup Wizard** will be launched automatically.
3. Follow the on-screen instructions to proceed with more settings.

Set up a new device from Settings:

1. Open the i-gotU Life app.
2. Tap the app icon at the upper left corner to open **function menu**.
3. Choose **Settings**.
4. Tap **Setup New Device** under **MORE DEVICE SETTINGS**.
5. Follow the on-screen instructions to continue.

Note

Your personal information is used to calculate your Base Metabolic Rate (BMR), which determines your calories burned.

4 Features of Q-Watch & i-gotU Life App

Silent Alarm

Silent Alarm awakes you using gentle vibrations of the Q-Watch. You can dismiss the alarm by long-pressing the button on the Q-Watch. In case you miss the alarm, Q-Watch will alert you again in 5 minutes. Alarms can be set up from: **i-gotU Life App Menu -> Silent Alarm**.

Notification

You will be notified with incoming calls, SMS, E-Mail, or alerts from the social apps via vibration. When notified about an incoming call on an Android smartphone, you may reject the call by long-pressing the button on Q-Watch. Notification can be set up from: **i-gotU Life App Menu -> Notification**.

Important Notice

1. Please make sure your Q-Watch is fully charged when used for the first time. It takes about 2 hours before it is fully charged.
2. Although the device is usable in the rain, its use under water is prohibited. Please avoid showering or sauna/steam bathing because high temperature, steam and water jet may cause damage to the device.
3. Please do not use any corrosive chemical to clean the device.
4. The built-in Li-Polymer Battery might be damaged if it remains low voltage for a long time. It is suggested that you charge the battery once every three months to prolong the battery's lifetime, even though you don't use the device very often or do not plan to use it for a while.

WEEE

Note on environmental protection:

After the implementation of the European Directive 2002/96/EU in the national legal system, the following applies:
 Electrical and electronic devices may not be disposed of with domestic Waste. Consumers are obliged by law to return electrical and electronic devices at the end of their service lives to the public collecting points set up for this purpose or point of sale. Details to this are defined by the national law of the respective country. This symbol on the product, the instruction manual or the package indicates that a product is subject to these regulations. By recycling, reusing the materials or other forms of utilizing old devices, you are making an important contribution to protecting our environment.
